More details and additional information can be found on the continuously updated page. Please feel free to take a look.

Open Culture Foundation

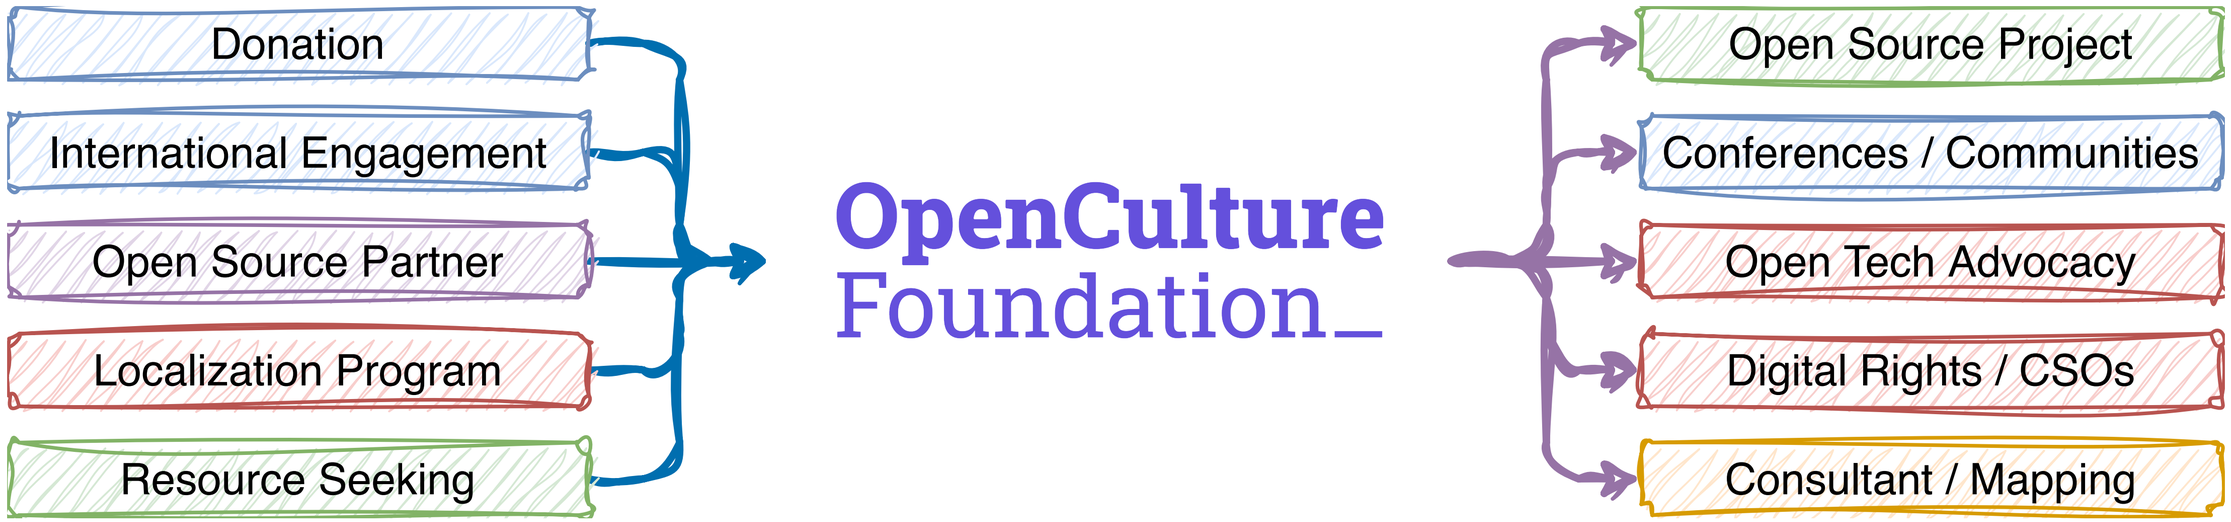

開放文化基金會

- Open Culture Foundation has been a NPO in Taiwan since 2014.
- We are dedicated to promoting the open source culture, open data, open tech in Taiwan.

Administration Center

Resources for logistics.

- OCF aims to serve as a hub for Taiwan's open source community.
- The focus on creating an administrative center to facilitate the operation of Taiwan's open source community.

Civic Sense

From Taiwan to the whole world, let’s help communities get the data they need to monitor their changing environment. When communities have access to sensors, it’s "civic sense".

Open StarTer Village （Board Game）

Worker Placement, Simulating Scenarios, Real-world Projects. Play and learn with Open StarTer Village, an educational board game on transforming the world through open-source technology and project collaboration.

Foundation Projects
